

Physiotherapy Courses

Access to course modules is available when you purchase the Course, Accreditation or Bundles of three.

It is recommended, where possible, courses are undertaken in succession commencing with Essentials, Core and selected Electives based on your area of interest or specialty.

For clinicians purchasing Accreditation, your offering will include Essentials, Core, a choice of 3 Electives and for those who successfully complete all modules, the final Accreditation Examination.

Download and track your progress with this editable form.
